

SOFTWARE DEVELOPMENT AGREEMENT

Project Name: AI.EXE Phase 1

Contract Date: February 15, 2026

Client: Alex Tkachev

Developer: Abat Chan (Mathew)

1. PROJECT SCOPE

The Developer agrees to design, develop, and deliver Phase 1 of a software application named AI.EXE. Phase 1 shall consist of a fully offline, self-contained Windows executable designed to operate on an NVIDIA GeForce RTX 3060 (12GB VRAM) system without requiring internet access or external API connectivity.

- Self-contained executable packaging with bundled runtime components.
- Local AI inference engine optimized for 12GB VRAM hardware.
- Hardware diagnostics including GPU detection, VRAM validation, and storage checks.
- Sandboxed runtime environment for controlled local execution.
- Persistent local memory system for maintaining context across sessions.
- Logging, rollback capability, and execution safety controls.

Phase 1 does not include guaranteed implementation of recursive self-improvement, consciousness simulation, singularity monitoring, intelligence explosion mechanisms, or hardware-level ternary computation. Such features may be considered under separate agreement.

2. COMPENSATION AND PAYMENT TERMS

Total compensation for Phase 1 development shall be Two Thousand US Dollars (\$2,000.00 USD), payable in full on February 15, 2026.

An additional \$150.00 USD is due to close out prior development work initiated under the previously cancelled project direction.

3. TIMELINE AND DELIVERABLES

- Month 1: Core architecture setup, runtime packaging framework, hardware diagnostics module.
- Month 2: Local AI inference integration, sandboxed execution environment, performance stabilization.
- Month 3: Persistent local memory system, logging system, rollback mechanisms.
- Month 4: Testing, performance tuning, documentation, and final executable packaging.

4. INTELLECTUAL PROPERTY

Upon full payment of the agreed compensation, all intellectual property rights related to AI.EXE Phase 1 shall transfer to the Client. The Developer retains no ownership rights after final payment.

5. LIMITATION OF LIABILITY

Developer's total liability under this Agreement shall not exceed the total amount paid for Phase 1 development. Performance of the software is subject to hardware limitations and system configuration.
